ACCURATE GPS NAVIGATION USING SIM CARD'S GPRS DATA

A very unique feature of Eyenimal GPS Dog Tracking Collar is the sim card slot feature. In addition to GPS navigation system, the network provider of that sim card will locate the signal of the collar and sends data to the mobile app if the GPS signal is weak. It can detect the sim card's signal within 100 to 300 meters in urban areas and within 500m to 2kms in rural areas.

GPS SIGNAL INDICATOR VIA MOBILE APP

If love to go mountaineering, hunting or just being outside with your dog, the Eyenimal GPS Dog Tracking Collar would keep you from worrying where to find your dogs if you lost sight of them. Because, the GPS signal indicator in your mobile app will tell you exactly where your dog is located and be traced easily.

WATER RESISTANCE – NO DRENCH COLLAR

Even if it's raining, the Dog Tracking Collar is fully functional as long as it does not submerge in water. You will have peace of mind that you can locate your dog in any weather.

MOBILE APP GREAT FEATURES

A special mobile app for your Smartphone is needed to scan the unique QR Code available in the manual of Eyenimal GPS Dog Tracking Collar. Once downloaded, the mobile app has the GPS signal indicator, the history data of the route where dog went, the current location of the tracker, displays the maps, satellite or street view, the address of the tracker and you may customise the icon replacing it with your favourite picture of your dog.weather.

24HR BATTERY USAGE

You can be at peace in locating your dog because the Eyenimal GPS Dog Tracking Collar has 24HR battery life. We recommend setting the frequency in getting the history in every 5 mins to save battery.

ULTRA LIGHT AND COMFORTABLE TRACKING COLLAR

The Eyenimal GPS Dog Tracking Collar only weights 35 grams and is comfortable to wear for your dog's neck. With the dimension of only 105 x 37x 30 mm, so your dog will not feel troubled while wearing the training collar.

WARRANTY FOR 1 YEAR WITH EYENIMAL

To guarantee that EYENIMAL has the best quality GPS Dog Tracking Collar, this product is covered with a one year warranty.
